

ENTER A NEW WORLD

Pretend that you are two inches high and can enter one of Bill Jeffcoat's photographs in the virtual exhibition, *Thru my lens*. Decide who or what you are and how you will enter the picture (be creative!) Once inside, tell us about the things you see, hear, smell and feel - use all your senses. What happens to you while you are in the photograph - tell us the story!

Find a place in the photograph we can't see. It could be inside a building, behind a counter, or under the ground. Draw a picture of this place.
