

Cross-Disciplinary Exploration and Engagement: An Art-Science Workshop

July 15, 2016

Meeting Hall, Konza Prairie Biological Station
Manhattan, Kansas

Apply to be one of the 20 artists and 20 scientists joining us for a day of intense mental stimulation, discovery, and dialogue to expand your practice and investigative imagination.

There is no cost to attend this workshop. Please fill out the registration application at <https://www.surveymonkey.com/r/GDW5T6Z>

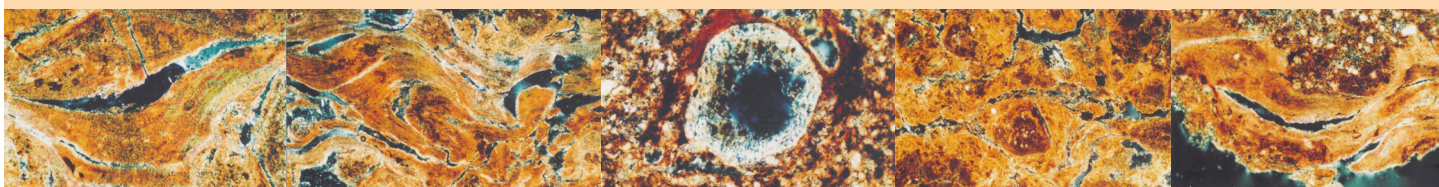

Special Presenter: **Matthew Coolidge**, Founder and Director of the Center for Land Use Interpretation (CLUI) in Los Angeles.

The CLUI seeks to understand the nature and extent of human interaction with the earth's surface, finding new meaning in the intentional and incidental forms that we individually and collectively create.
