

SCHOOL TOURS

This tour has been designed as a community resource for area first-graders learning about the science of light (Next Generation Science Standard, Waves: light and sound). Students will learn about the spectrum and light waves, the difference between the colors of light and pigments, light sources and shadows, and the optics involved in dot matrix printing and pointillist painting. Thank you to Lee School first grade teachers for test-piloting this program!

Tours are free, available Tuesday-Friday, last 1½ hours and are for 1st graders. Bus funds are available, provided by donations to the museum.

Contact: Kathrine Schlageck, Associate Curator of Education, at klwalk@ksu.edu or 785.532.7718

Bus funds are provided by individual and private foundation donations, not government funding. To financially support the bus fund and/or education programs, contact Kathrine Schlageck.
